

BRIEF SUMMARY

As a Full Stack Developer, I have a strong foundation in data structures and algorithms and hands-on experience with React, Node.js, ExpressJS, Next.js(beginner), and MongoDB. I have worked with PostgreSQL, Firebase, and built REST APIs, focusing on writing clean, efficient, and scalable code.

I enjoy solving complex problems and collaborating in teams, with experience in frameworks like Hono.js for microservices. I'm eager to contribute to impactful projects and continue learning along the way.

I aim to contribute effectively to any team and continue enhancing my skills in software development.
